About This Game

THE STORY

Haruka Tendou looked up to the sky and made his two wishes.

First, he wanted to know the truth.
And second, he wanted someone back.

Luna, ruler of Eclipse, was the only being powerful enough to grant his grief-filled plea.
But first, with his soul hanging in the balance, he had to complete the Oracles she demanded of him.

This is the tale of the war between Haruka and Luna.
The tale of Haruka's solitary war.

No one will know the tears he sheds.

VOLUME 1

"We know of no creature more selfish than humans."

Haruka Tendou has made up his mind.

Week after week, Luna imposes her heartless Oracles on him.
This week's Oracle makes all his past trials pale in comparison, but Haruka must see it through.

For if he doesn't complete his Oracle, the cruelest of punishments awaits him.

So, aiming to clear his first Oracle, he sets his sights on his friends.

FEATURES

- The first volume in the thrilling DareSora series!
- Stunning voice cast!
- Beautiful artwork!
- A visual novel of mystery and chance.

CHARACTERS

Haruka Tendou

Greenwich Academy Second Year.
An intelligent young man and avid reader, with a particular fondness for mystery stories.

Haruka has a calm, rational personality and prefers to think things through before acting. In spite of this, Luna finds him an easy target to manipulate.

He challenges Luna, despite knowing how reckless it is, because he wants to discover the truth of a certain incident and get someone back.

Height: 170cm
Specialist Writing Genre: Mystery

Mio Kishigure

Greenwich Academy Second Year.
A model student and diligent club chairman, wrestling with her inner demons.

Mio is a responsible, self-confident girl, but because of her firm conviction in her beliefs, people tend to call her stubborn. Her club members have been heard to joke that she's no fun.

She loves reading mystery stories and frequently discusses them with Haruka, who shares her taste in novels.

Height: 165cm
Specialist Writing Genre: Mystery

Makishi Arashi

Greenwich Academy Second Year. Haruka's classmate.
A hot-blooded young man with a great love of sports.

Makishi's preference to act, rather than risk over-thinking things, makes him a perfect complement for the ever-cautious Haruka.

Though he can sometimes accidentally sow conflict with his simple honesty, he's an easy-to-manage guy with an empathetic side, so the girls in his club think highly of him.

He's not the sharpest tool in the shed, which gives him grief when he's trying to proofread, let alone write.

Height: 180cm
Speciality Writing Genre: Sports

Yuni Sakasa

Greenwich Academy Second Year.
A slender, baby-faced classmate of Haruka with a complex about his height.

Yuni is an incredibly hard worker who exudes sincerity, but unfortunately for him, his adorably young looks often lead people to treat him as a child. His juvenile appearance and actions inspire everyone around to protect him, which sometimes causes trouble.

Doggedly persistent, he forces himself to drink milk every day in hopes of growing taller.

Height: 150cm
Specialist Writing Genre: Action / Adventure

Chiyo Konpira

Greenwich Academy First Year.
An outgoing younger student, always ready with a smile.

What you see with Chiyo is exactly what you get: a happy, cheerful girl. She can get along with anyone, even fitting naturally into her older classmates' social circles at school. Her fellow club members have given her the pet name "Pichon."

Chiyo isn't much of a reader by nature, so she struggles with writing.

Height: 148cm
Specialist Writing Genre: School Life

Luna

The devil? The grim reaper? A phantom? A vampire?

All that's known for sure is that she doesn't mean to play fair, and she goes by the pseudonym "Queen of the Night."

Luna's lust drips from her every word and smile. Arrogant and prideful, she has dubbed herself the Grand Duke, and she takes great joy in chattering childishly with all those she deems beneath her lofty status.

Endowed with great knowledge and foresight, she is far more mature than her appearance would lead one to believe.

She lies in wait for Haruka with her bunny servants in her mysterious palace, Eclipse, which manifests only on weekends.

Height: 145cm

Favorite Things: Flesh of Young Humans, Blood, Souls, Despair, Being Called by Her Name, Chatting

Least Favorite Things: Unworthy Opponents, Boring Games, Silence

Special Skills: Monologuing, Provocation

Bunnies

Luna's servants who reside in Eclipse.

The Bunnies have no individual names, but have different personalities depending on their color. However, no matter the Bunny, they obey Luna's orders absolutely. If Luna ordered a Bunny to die, they would do so without a second thought, showing both how strongly they are devoted to Luna and also how little they value life.

Red is the symbol of fanaticism. A faithful servant with blind loyalty and devotion to her mistress.

Height: 163cm

Review is currently based on my first time playing, single player in desktop mode.

Simplistic dungeon runner game.

Either try to run like hell or fight your way through.

Does not appear to be a ton of depth behind it, but I only made it to level 4 and completed two runs.

Currently only four weapons to choose from, would love to see upgrades and new weapon types!

Character leveling is linear and Im not exactly sure what you get for leveling up.

Cant say I would buy it again at the current price.

Like a lot of these games, the potential is there... just keep going with it!

I am excited to try the boss battles in VR though!

Will update my review afterwards.. Set mouse button to click at 10 clicks per second.

???

PROFIT!. Great maps for Co-Op play, most fun we've had in a good while! And all for Free is really great!

Keep up the good work!. Well if I can give this review a mixed, Iu2019d like to. There are actually not nesscairly a performance increase. But instead it made the FPS unstable. I normally get 30 max 24 FPS low in 530x768 in r6 siege, but after launching the cpu cores it turned to be 12 FPS low, 36 FPS max.

Haven\u2019t tested other games but I\u2019ll do an update.. I haven't beaten this game yet but so far it's quite good. I'm writing a review early because it's a travesty that this game has so few reviews; I intend to update it later. But I've played enough to know the positive rating is deserved.

Simply put, if you like Zelda you will probably enjoy this game.. Uggg. Seriuosly, what a horrible experience. The whole time is like, what the hell am I supposed to be doing? Their basic moves, fine simple, I even got a few things done, but then you're just stuck wandering around hoping randomly clicking on things will do something. And there's no help out there. Walkthroughs or videos are non-exsistent, even here on steam. Just don't waste your time.. I bought it for 0,3\u20ac so i cant complain :)

Fun game to play when you have nothing else to do.

. Great game about the bartender, club, girls, parties, good gameplay, good enough locations, although the game is very raw, you can already play and enjoy the gameplay, I advise everyone to try it, quite simple to learn and very interesting game, suitable for relaxing after a long of the day, my rating is very good, I recommend this game to everyone!. Very nice engine for switching considering its designed for that job. If you have any U.S frieght map for the North Eastern U.S it will work very good. No

matter if theres CSX or NS it performs with flying colors. This game filled a certain leather jacket salesman, pirate hole that was in need of filling after so many years.

Great game, a fun afternoon distraction with some good laughs, and unexpected moments. the puzzles where at times headsplitting, but was enjoyable clicking on every god damn thing with every god damn item in my inventory.

over all: 4/5

pros: great story, light hearted fun and made me want to keep playing. had a classic adventure point and click objective that did not feel outdated, or cliché. great use of clever items.

cons: art at times was uncanny valley and background felt empty at times such as in the bars. the illustrations in between story arc needs polish. Character models at times did not fit the world as nicely. some puzzles I didn't have a clue what to do next.

would love to play more adventures on Cid of Darksville, and would love to see more of that world!

Smoke Banana Everyday.. didn't know i had this. Another great set of cars. All are good.. Well, this game has reminded me why Gaben gave us Steam refunds. The game is awful. The controls use the ARROW KEYS?! Did I fall through a time portal into the 80s? It would explain the graphics at least. Not that the graphics are a problem, I'm all for retro style graphics. So the game gives you no direction as to what to do at the beginning, and even if you go into combat you can basically mash the spacebar and you'll win. Did I mention the combat? You can't click anywhere on the hud to do things. You use the arrow keys and spacebar for everything in the game. This is awful! I WANT WASD CONTROLS! Did I mention it's basically a Final fantasy rip off. I'm not just saying that because it's a jrpg but you have 4 heroes with 10 classes that are all the same besides using different weapons. It doesn't have any of the GOOD things about FF though. This game is awful. I rate it -2/10. Don't buy this.. 99 Levels to Hell is Very Fun and Addicting! The Style is somewhat similar to spelunky but alot more fast paced and action packed In my opinion. If you like Rogue-Likes and or Platform Shooters You will love 99 Levels to Hell and at \$5.00 it's a steal of a deal. I would pay 2-3 times the amount for this game without hesitation.. A good concept that was executed poorly.
